CVS, please use the following steps:

1. Run the primary insurance with rebate as secondary. Enter BIN#, Group# and ID# located on the rebate. After running the primary claim, a prompt will come up that says "Do you want to split the bill?" Select "Yes" and the next prompts to run the claim.
2. The primary will reject and the secondary will show "Pending" status.
3. In the reject message (DUR) screen, type in initials "BP" to bypass insurance or press the BP button in the lower right hand corner of the screen (the OCC-3 claim will auto populate when pharmacist enters "BP").
4. Once bypassed, the system will ask, "only proceed if claim is unresolvable". DO NOT edit any fields, submit claim and let the system auto process.

Walgreens, please use the following steps:

1. Enter in copay card BIN#, GROUP# and ID# into the profile.
2. Process through primary insurance to see if covered at all. If there is a rejection for "drug not covered", P.A. or step-edit, cash out the prescription and process an SDL (submit direct link).
3. Complete the SDL form, first processing for the primary insurance so that it will reflect the rejection from the primary payer.
4. Once the SDL through the Primary rejects, cash it out.
5. Next process the SDL for the savings card using the Other Coverage Code "3" (other coverage exists, this claim is not covered).

Target, please use the following steps:

1. Run the claim through the patient's primary insurance – it will reject.
2. If the claim requires PA, step-edit, or is NDC blocked, submit OCC (Other Coverage Code) "3" OR Secondary Claim "8" using the savings card. When submitting 3/8 claim, the pharmacy should click "YES" when prompted, "transmit to other insurance". This does not always happen but is a good problem-solving technique if he/she runs into difficulty.
3. Utilize the BIN#, GROUP# and ID# located on the savings card.

Walmart, please use the following steps:

1. Adjudicate the claim through patient's primary insurance – it will reject.
2. If claim requires PA, step-edit or is NDC blocked, bypass the rejection and run the claim as a secondary payer by either choosing "OCC" (Other Coverage code "3") or selecting "have insurance coverage, no payment collected".
3. Utilize the BIN#, GROUP# and ID# located on the savings card.
